

News Release- 2012 RBC Cup

For immediate release

November 15, 2011

Humboldt, Saskatchewan. - Individuals interested in volunteering for the 2012 RBC Cup to be hosted by the City of Humboldt next May are encouraged to attend an important information session organized in Humboldt tonight.

The first Volunteer Blitz Night for the 2012 RBC Cup will be held at Humboldt's Uniplex from 7 – 9 p.m. Although the main event is still more than six months away, the excitement is building and plans are underway to host the upcoming National Junior A Hockey Championship.

About 100 people have already signed up on-line to take part in the RBC Cup. Those volunteers and new recruits who attend tonight's Blitz Night will have access to all the information they need to know about volunteering for next May's Hockey Canada event.

SaskEnergy, is one of the sponsors of volunteers for the 2012 RBC Cup, and SaskEnergy representatives will be on hand at the Blitz Night lending its support to the committee with a few prizes to give away.

“Humboldt is preparing to host another successful Hockey Canada event for Saskatchewan. At least 300 volunteers are required, and we know the secret to any event's success is the generous time and energy the community volunteers are willing to commit,” said Shannon Doka, Community Involvement Leader with SaskEnergy.

The 2012 RBC Cup, scheduled for May 5 – 13, will mark the 25th anniversary of the first time the Broncos hosted Canada's National Junior A Championship, which was the 1987 Centennial Cup. Humboldt is just the second city to host the national championship twice since a host team was added in 1985, joining Summerside, P.E.I.

For more information on how to volunteer please contact Susan Saunders at s.saunders@sasktel.net or visit ww.hockeycanada.ca.
