Re: Complimentary Tickets for Students to “An Inconvenient Truth”

On April 23rd, Al Gore, former Vice-President of the United States, will be coming to Regina to deliver his Academy Award winning presentation “An Inconvenient Truth.” SaskEnergy is a sponsor of this event and, as part of our ongoing commitment to supporting environmental education; we have secured 250 tickets for Saskatchewan youth to experience this once in a lifetime educational opportunity and will be given out on a first come first serve basis. At this time, we invite your school to apply to send 5-10 grade 10 – 12 students who have demonstrated an interest in environmental issues and have the leadership skills necessary to share what they learn.

SaskEnergy will be hosting the Enviro-Action Youth Forum in conjunction with this event which will provide an opportunity for delegates to attend the presentation and then consider how they might impact others and the environment in our own province. A guest speaker from Nature Conservancy Canada will discuss environmental issues and initiatives in Saskatchewan at a complimentary lunch for all participating students and chaperones. Students will have an opportunity to formulate ideas for how they can mobilize youth in their communities to make a difference and protect our natural landscape. Each school participating will be provided a complimentary DVD of “An Inconvenient Truth.”

Interested? With Easter holidays just around the corner there is not a moment to lose. Fax back your application today. More information is available at www.saskenergy.com. Preference will be given to student teams with a plan to use their complimentary DVD of “An Inconvenient Truth” to organize an environmental education experience in their school or community.

Top priority will be given to student teams who commit to raising \$500 for a legacy gift to support conservation efforts in our province. SaskEnergy has set aside funds to match the efforts of students to a maximum of \$500 per team or \$5,000 in total. All funds will be turned over to the Nature Conservancy to support a new conservation campaign in the Qu’Appelle Valley area to be announced later in the spring.

This is an extraordinary environmental education opportunity for Saskatchewan youth. Select a team and apply today. The deadline for application is April 18th at which time Nature Conservancy will assist in the selection of successful teams. All teams will be notified by April 19th as to the status of their application.

We look forward to hosting you for this once in a lifetime opportunity! Bring your energy and enthusiasm to help make this day a big success!

Sincerely,

SASKENERGY INCORPORATED
