### SaskEnergy Home Check-Up

Performed by a qualified SaskEnergy technician, the Home Check-Up includes an indoor air quality check and a visual inspection of the key parts of your primary heating source and water heater.

Indoor air quality check will monitor levels of:

- Oxygen
- Carbon Monoxide
- Methane

Visual inspection includes:

- Furnace room hazards
- Chimney
- Thermostats and furnace switch
- Blower operation, burners, motor and fan
- Pilot safety systems
- Indoor gas lines and venting of all natural gas appliances

12 easy payments of  
\$7.66\*/month OR \$81.95\*\* plus taxes

\* APR of 10.5% and fixed term of 12 months. \*\* Parts and labour for repairs not included.

### SaskEnergy Network Home Heating Tune-Up

The SaskEnergy Network Home Heating Tune-Up is performed by a qualified SaskEnergy Network Member. Network Members are independent natural gas contractors located across the province. This service includes a thorough, hands-on examination and annual maintenance of your home heating system to ensure it is running at peak efficiency.

A Network Member will:

- Visually check heat exchanger
- Examine blower compartment
- Clean and lubricate motor and fan
- Examine chimney and clean out debris
- Clean or replace filter (if supplied by customer)
- Clean and reset burners
- Examine operation of fan and high limit controls
- Inspect gas pilot system
- Examine and adjust drive system
- Test thermostat and furnace switch

12 easy payments of  
\$10.27\*/month OR \$109.95\*\*\* plus taxes

\* APR of 10.5% and fixed term of 12 months.\*\*\* Parts and labour for repairs not included. A \$20 additional charge is applied for boilers and high-efficiency furnaces. \$75 for a second furnace. An additional charge may apply for removal of motor, fan, burners and travel costs.
