

Rallying the World's Troops!

On March 14, 2011, volunteers from all corners of the province made their way to the Casino Regina Show Lounge to attend the final Volunteer Rally before the 2011 Ford Men's Curling Championships gets underway in early April.

SaskEnergy is proud to be the Official Volunteer Sponsor of the curling championships, and the rally was designed to allow the registered volunteers to pick up their volunteer package and hear from 2011 Ford World Men's Curling Championship organizers.

SaskEnergy volunteers assist the host committee during the Volunteer Rally

SaskEnergy is dedicated to supporting our province's enthusiastic volunteers who consistently live up to their reputation, ensuring that major sporting events keep coming to our region. The Regina event is a great example, with 512 volunteers from all parts of Saskatchewan on board to help out with the eight-day tournament.

The first session of the Volunteer Rally saw members of the Hosting, Promotions and Special Events volunteer committees in attendance, with a later session hosting Facilities' and Keith's Patch volunteers. In both sessions, the volunteers were welcomed, introduced to their assigned category's Director and given their information package, uniform and volunteer handbook for the upcoming event.

SaskEnergy showed why we are known as the "Champion of Volunteers", with a number of employees donating their time to assist the host committee with their duties, ensuring the night ran smoothly and according to plan.

"The committee would like to extend a huge thank-you to our friends at SaskEnergy for once again being a friend of curling and volunteerism. In particular, thanks to the SaskEnergy volunteers who came out to help at our volunteer rally," says Derek Boe, 2011 Ford World Men's Curling Championship Host Committee Chair. "Having SaskEnergy volunteers at the rally meant that our volunteers could just relax and have fun!"

Thank you to everyone who volunteered their time for the rally! For more information on the 2011 Ford World Men's Curling Championships, please visit <http://www.curling.ca/championships/worlds/>
