

SaskEnergy  
**Tune-Up  
Assistance  
Program**

Keep warm this winter  
with a home heating system  
**that runs safely and  
at peak efficiency.**

### What is the Tune-Up Assistance Program?

The Tune-Up Assistance Program (TAP) is designed to help low income homeowners maintain their natural gas space heating equipment.

Completing a Home Heating Tune-Up and regularly replacing the furnace filter keeps warm air flowing throughout your home, reduces the workload on your furnace, and improves indoor air quality.

**A participating SaskEnergy Network Member will complete the following Home Heating Tune-Up service for selected homeowners free-of-charge:**

- Examine chimney & clean out debris
- Visually check heat exchanger
- Examine blower compartment
- Clean & lubricate motor and fan
- Clean & reset burners
- Examine operation of fan and high limit controls
- Inspect gas pilot system
- Examine and adjust drive system
- Test thermostat and furnace switch

## SaskEnergy Tune-Up Assistance Program

Keep warm this winter  
with a home heating system  
**that runs safely and  
at peak efficiency.**
