

SaskEnergy Executive Committee

Derrick Mann
Vice President, Engineering, Integrity
and Construction
Regina, Saskatchewan

Derrick began his career with TransGas in 1999 as a co-op student while completing his Bachelor of Applied Science Industrial Systems Engineering degree at the University of Regina. He joined SaskEnergy/TransGas full-time in 2001 and has since held roles in many areas of the company, including Integrity, Engineering and Operations. In his current role, he is responsible for the engineering, technology, integrity and construction of SaskEnergy and TransGas facilities.

As Vice President, Engineering, Integrity and Construction, Derrick brings leadership and experience from various industry associations such as the Canadian Energy Pipeline Association (CEPA), the Canadian Standards Association (CSA), and Pipeline Research Council International (PRCI) and has worked extensively with other government entities to improve the safety and reliability of energy systems in Saskatchewan communities.
