

Compare the savings with Natural Gas

Space Heating

Natural gas is the most inexpensive way to heat a space. For every **\$1.00** you pay for natural gas to get the same amount of heat you would pay the following for other fuels[†]:

Natural Gas	\$1	=	Electricity	\$5.96
			Propane	\$3.02
			Fuel Oil	\$4.65

[†]Calculation based upon natural gas and propane furnaces rated at 95% efficiency, fuel oil at 85% efficient and electric at 100% efficient.

Water Heating

Natural gas is also the most inexpensive option for water heating. For every **\$1.00** you pay for natural gas to get the same amount of hot water you would pay the following for other fuels[†]:

Natural Gas	\$1	=	Electricity	\$3.67
			Propane	\$3.02

[†]Calculations based upon natural gas and propane water heaters rated at 55% efficient and electric water heaters at 94% efficient.

All values are for heating energy only. Service charges, applicable taxes and surcharges are not included in the calculations presented in these comparisons.

Fuel Rates as of November 1st, 2017

Fuel Type	Residential Rates
Natural Gas	\$0.2311 per m ³
Electricity	\$0.1374 per kWh
Fuel Oil*	\$0.9090 per litre
Propane*	\$0.4540 per litre

* Provincial average. Costs may be higher or lower in specific areas.

More reasons to choose Natural Gas

Natural gas...

- is the most reliable and convenient energy source
- is the cleanest burning of all the fossil fuels – the natural choice for the environment
- fuels more than just furnaces and water heaters. Barbecues, patio lights, radiant heaters, ranges, fireplaces and clothes dryers are among many other possibilities. There are also numerous agricultural, commercial, and industrial applications.
- is **safe!** Natural gas is lighter than air and will dissipate into the atmosphere unless confined. SaskEnergy adds an odour to natural gas that smells like a skunk or sewer gas to help you detect if there is a natural gas leak.

SaskEnergy Network Members

SaskEnergy Network Members are independent retailers and contractors in your community - working with SaskEnergy to ensure you have easy access to the benefits of natural gas appliances. SaskEnergy Network Members offer the latest information on programs and services and offer the convenience of in-store financing. For whole home natural gas solutions, Network Members burn brighter.

Visit saskenergy.com or call 1-800-567-8899 for more information and to find your nearest SaskEnergy Network Member.
